

Talha Badar

Mobile Application Developer | Flutter & Full-Stack Engineer

+92 333 5256437 | talhabadarhallian@gmail.com | Haripur, Pakistan | talhadevelops.vercel.app | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Mobile Application Developer with 3+ years of professional experience building responsive, scalable, and user-friendly cross-platform applications using Flutter and Dart. Achieved 99.9th percentile nationally in the HEC National Skill Competency Test (NSCT) 2026, ranking among Pakistan's top IT graduates. Proven track record delivering 50+ projects across ride-sharing, e-commerce, inventory management, and SaaS platforms for international clients. Proficient in Firebase, REST APIs, Node.js, MongoDB, and React.js. Adept at clean architecture, performance optimization, state management, and full-stack development.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, React Native, Android SDK, Cross-Platform Development, State Management (Provider, BLoC, Riverpod)

Frontend: React.js, Next.js, HTML5, CSS3, JavaScript, UI/UX Implementation, Responsive Design

Backend & APIs: Node.js, Express.js, REST APIs, Firebase (Auth, Firestore, Cloud Functions), Flask, Django

Databases: MongoDB, Firebase Firestore, MySQL, Oracle Cloud Infrastructure

DevOps & Tools: Git, GitHub, Azure, AWS, cPanel, Debugging & Troubleshooting

Languages: Dart, JavaScript, Python, Java, C++, MATLAB, SQL

Productivity: Microsoft Office Suite, Microsoft Azure, Figma (collaboration)

WORK EXPERIENCE

Software Developer | [Shurq](#) — London, United Kingdom (Remote)

Sep 2025 – Mar 2026

- Developed and maintained a cross-platform mobile application for Amazon sellers.
- Built responsive and high-performance mobile interfaces, integrated REST APIs, and implemented scalable features for seller analytics and inventory management while ensuring smooth user experience across Android and iOS platforms.

Associate Software Developer | [Bit Technologies](#) — Islamabad, Pakistan

May 2025 – Sep 2025

- Led cross-platform mobile application development using Flutter, overseeing the full software development lifecycle from architecture to deployment.
- Mentored junior developers, enforced code quality standards, and contributed across 17+ technical domains.
- Drove end-to-end project delivery, applying expertise in software engineering, problem-solving, and modern frameworks.

Flutter Application Developer | [The UX Bench Pvt Ltd](#) — Haripur, Pakistan

Jul 2023 – Apr 2025

- Designed, built, and maintained cross-platform mobile applications for international clients using Flutter and Dart, consistently achieving high-quality user experiences.
- Collaborated with UI/UX designers to translate Figma mockups into pixel-perfect, production-ready interfaces.
- Integrated third-party REST APIs, managed state with BLoC/Provider, and optimized app performance across Android and iOS.

- Debugged complex issues, implemented CI/CD practices, and deployed scalable solutions to app stores.

Intern Application Developer | **The UX Bench Pvt Ltd** — Haripur, Pakistan

Mar 2023 – Jun 2023

- Developed Flutter mobile applications during internship, strengthening skills in Android development, UI/UX, and collaborative workflows.

Intern Developer | **Bit Technologies** — Islamabad, Pakistan

Nov 2022 – Feb 2023

- Gained hands-on experience in Flutter and Android development, contributing to live client projects.
- Wrote clean, maintainable code and enhanced cross-platform app development skills in a professional environment.

KEY PROJECTS

Let's Ryde – Ride-Sharing Platform | *Flutter · Stripe · Firebase · Google Maps API · Real-time*

Full-featured ride-sharing application with real-time GPS tracking, driver-rider matching, push notifications, and in-app payments. Architected for scalability using Firebase Firestore and Cloud Functions.

ClientBook – Makeup Artist Booking App | *Flutter · Stripe · Scheduling · Firebase*

Professional booking and management platform for makeup artists enabling client scheduling, payment processing via Stripe, and appointment management. Delivered responsive UI across Android and iOS.

MIA – My Insurance App | *Flutter · Inventory · Analytics · Firebase*

Secure inventory and insurance management system with real-time analytics dashboard, document storage, and role-based access control.

SaifLocators – Location-Based Services App | *Flutter · Geolocation · Google Maps SDK*

Advanced location tracking solution with real-time GPS services, geofencing, and custom map overlays built using Flutter and Google Maps SDK.

EDGE-AI Wildlife Detection System (Ongoing Research) | *Edge AI · Computer Vision · NVIDIA Jetson AGX Orin · Real-time Monitoring*

Research project developing an edge AI-based real-time wildlife detection and monitoring system using computer vision models optimized for deployment on edge devices (NVIDIA Jetson AGX Orin, NVIDIA Jetson Nano) in field environments.

EDUCATION

BS Computer Science | **Pak Austria Fachhochschule – Institute of Applied Sciences & Technology** — Haripur, Pakistan

Oct 2022 – May 2026 (Expected)

- Relevant coursework: Data Structures & Algorithms, Software Engineering, Mobile Application Development, Database Systems, Computer Networks, Machine Learning.

CERTIFICATIONS & ACHIEVEMENTS

HEC National Skill Competency Test (NSCT) — 99.9th Percentile

Higher Education Commission (HEC) · PSEB · P@SHA · NCEAC — 2026

National industry-aligned competency assessment for Pakistan's final-year CS/IT graduates, conducted by HEC in collaboration with the Ministry of IT & Telecom, PSEB, and P@SHA. Evaluated applied skills and industry readiness across core computing domains. Ranked in the 99.9th percentile nationally, qualifying for the National IT Talent Pool — a verified database shared directly with top-tier Pakistani and international IT employers.
